

AdvanceVT Quarterly Report

National Science Foundation
Cooperative Agreement SBE-0244916
December 30, 2003

Significant Accomplishments

- Obtained commitments from Dean of Engineering and Dean of Sciences for \$25,000 each in matching funds for research initiation support for women faculty

Areas of Difficulty

- Unable to fund child care for women faculty attending *AdvanceVT* workshop using either grant funds or university matching funds

Best Idea/Reference/Insight

- By using committees made up of representatives from many departments and schools, we are increasing the participation in and ownership of Advance program activities
